

GIVES DETAILS OF MASSACRES.**American Committee Receives News from Armenia.****Convicts are Turned Loose to Murder People.****Thousands of Victims are Killed on Highways.**

(BY A. P. NIGHT WIRE.)

NEW YORK, Oct. 12.—News of additional alleged atrocities inflicted by the Turks upon the Armenians was given out here today by the American Committee on Armenian Atrocities in the form of a letter received from an American professor in one of the American colleges in Turkey.

"Every one," the committee explains, familiar with the temper and spirit of Turkey at the present time will readily understand why his name and more particularly as to the places cannot be given to the public.

The writer says that during the last week in April the professor of Armenian at his college was arrested and imprisoned with twenty-five other prominent Armenians. Later he was taken to Sivas, where he died. On June 26 many of the prominent men, including Uprope, Hagopia and Manadlian were taken to the soldier barracks until the total number 1215.

MURDERED ON HIGHWAYS.

"At a place three hours distant from the city on a lonely road leading to Zelik, all of these men were brutally slain by the gendarmes and by men called Chetibes. Chetibes are murderers released from prison for the express purpose of preying on Armenians."

The writer also tells of the wholesale deportation during July of 12,000 persons from that section of the city nearest to the institution.

A government officer, the writer continues, "declared that the destination of the exiles was to be Mosul, a city about five or six hundred miles distant in the desert regions of Mesopotamia. These exiles were taken to us that it was practically impossible that any of the people should ever reach this place."

"The town of Samson was similarly emptied of its Armenian population; also Amasia, Vestr, Koprur, Chorum and all other towns and villages in the vicinity of Marsovan."

"The last of August along the Anatolian railway from Angora to Constantinople, saw 30,000 Armenians scattered in the fields and at stations along the road, without adequate supply of food and no means of shelter. At Merkeid alone, the station master told us, there were 30,000 exiles. Many were weak from hunger, others almost dead."

GREEKS NEXT.

The writer says that the American Consul was told that the Turkish government intended to exterminate the Armenians. "Further," the professor continues, "that when the Armenians were disposed of, the Greeks would be similarly treated, and after that, the foreigners."

A like statement was made by Enver Pasha, the Minister of War, to our Ambassador, Mr. Morgenthau.

"The motive for this persecution, according to government officials, was the fact that the Armenians would strike them (the Turks) in the back while they were fighting their foreign enemies. Their motive was mixed. There was in it a large element of religious fanaticism, a greed for loot and a bestial lust."

Investigating.

WASHINGTON, Oct. 12.—Certain yachts in the Gulf of California and at Norfolk and Pensacola are being investigated by British agents, who suspect them of having been prepared or of now being outfitted for use against ships carrying oil from Mexico for the British navy. Three small ships are said to have recently disappeared from the Gulf of California.

Recent reports to British sources of the attack on a British tanker bound from Tuxpan in the Mexican oil fields, strengthen the belief of the agents that the attacking ship, manned by Germans and outfitted

At Broadway Show.**FLOWER GROWERS INVITED TO COMPETE FOR CUPS.**

The Broadway Automobile and Flower Show, through the Los Angeles Times, invites noncommercial flower growers of Southern California to exhibit cut roses, chrysanthemums, dahlias, carnations, begonias and other flowers and ferns and potted plants at the big show to be held the 23rd to 30th of this month in the entire building opposite City Hall, recently vacated by the Boston Store. Forty handsome cups are offered as prizes to winners in forty classes. There is no entrance fee nor other obligation. Please fill in and mail the attached entry blank and space will be reserved for you. Each exhibitor is entitled to a season pass, which will be issued at the building the morning of the opening day.

ENTRY BLANK

Broadway Automobile and Flower Show, The Times, Los Angeles.

I desire to enter, without entrance fee or other obligation except to conform with the rules of the show, for noncommercial exhibit of

(State exact nature of proposed exhibit, whether roses, chrysanthemums, dahlias, other flowers or plants.)

In the Broadway Automobile and Flower Show, to be held October 23-30, in the building opposite City Hall, formerly occupied by the Boston Store.

Greeks would be similarly treated, and after that, the foreigners."

FRENCH DESTROY SAUSAGE BALLOON.**LIEUTENANT DROPS FIRE BOMBS ON GERMAN CRAFT FROM SKY.**

(BY ATLANTIC CABLE AND A. P.)

PARIS, Oct. 12.—The destruction by a lieutenant of the aviation corps in the Champagne of a German captive balloon of the type known as "Sausage," which was mentioned in a French official statement, is declared to have been a particularly brilliant and difficult feat.

Determined to get rid of this particular balloon, by means of which the Germans had obtained valuable information regarding movements of French troops, the lieutenant experimented two months with fire balls, then started for the attack on the balloon.

The aeroplanes guarding the balloon, moored fifteen miles behind the German lines, were so vigilant the lieutenant had to try four times before he could rise above it. On the fourth attempt he swooped down in a gliding flight from a height of 10,000 feet and placed his fire bombs directly before the balloon could be hauled down. In dropping his fire bombs the Frenchman came near enough to the balloon to be in full range of German anti-aircraft guns, but he managed to rise safely and escaped from a perfect hurricane of bursting shrapnel.

BULGARIA OWES CZAR NO DEBT.

(BY WIRELESS AND A. P.)

BERLIN, Oct. 12 (via Tuckertown, N. J.).—Discussing the Balkan situation, particularly with regard to foreign criticism of the policy of King Ferdinand of Bulgaria, the Lokai Ambassador said:

"Although the status of a Russian emperor stands in Sofia, Bulgaria has owed no debt of gratitude to Russia since the second Balkan war. Every Bulgarian has desired to take back Macedonia since those tragic days. King Ferdinand said, when he expelled the troops after the second Balkan war, that Bulgaria's allies had acted as traitors. If the King had accepted the offer of the Entente powers of a part of Macedonia it would have meant an enormous increase in the power and influence of Bulgaria, which later would have been compelled to concede to Bulgaria."

GREEK POSITION ARMED NEUTRALITY.

(BY ATLANTIC CABLE AND A. P.)

LONDON, Oct. 12, 6:47 p.m.—When the Serbian Minister at Athens officially advised Premier Zaimis of the beginning of the Bulgarian offensive against Serbia, Premier Zaimis, according to a dispatch to the Star from Athens replied:

"Greece remains in the position of armed neutrality."

Investigating.

WASHINGTON, Oct. 12.—Certain yachts in the Gulf of California and at Norfolk and Pensacola are being investigated by British agents, who suspect them of having been prepared or of now being outfitted for use against ships carrying oil from Mexico for the British navy. Three small ships are said to have recently disappeared from the Gulf of California.

Recent reports to British sources of the attack on a British tanker bound from Tuxpan in the Mexican oil fields, strengthen the belief of the agents that the attacking ship, manned by Germans and outfitted

with such a variety of supplies as would be used by a warship, left Pensacola, Fla., October 4. They have not established her identity.

Charges that certain officers of the two interned German auxiliary cruisers at Norfolk were connected with the outfitting of the ship which left Pensacola also are being investigated. Another phase of the investigation is the attack on a British tanker bound from Tuxpan in the Mexican oil fields, strengthen the belief of the agents that the attacking ship, manned by Germans and outfitted

with such a variety of supplies as would be used by a warship, left Pensacola, Fla., October 4. They have not established her identity.

BERLIN OFFICE EMBARRASSED.**Wants Wilson to Take Firm Stand with Britain.****German Anti-American Party is Growing Steadily.****Another Note Sent to Teutons in the Frye Case.**

(BY ATLANTIC CABLE AND A. P.)

BERLIN, Oct. 11 (via London).—The public now knows that the submarine controversy with the United States was settled by German concessions and in consequence the Foreign Office finds itself in a trying position which cannot be relieved until the United States takes an attitude in the British difficulties equally firm or to the point of being as unyielding as it was in the submarine question.

Some of the people here believe that President Wilson really is trying to be neutral, but I must confess that this number is small.

Though Ambassador von Bernstorff's concessions have done much to win American friendship they also have done much to create a strong and definite anti-American party in Germany.

ANOTHER NOTE SENT TO BERLIN.

(BY A. P. DAY WIRE.)

WASHINGTON, Oct. 12.—The United States in a note dispatched to Germany today to be presented by Ambassador Gerard on the case of the American ship William W. Frye, asks that if it is found necessary to destroy American ships carrying absolute contraband, passengers and crew be removed to a safer place than small boats.

The American government accepts the German suggestions in reply to the American protest, but declines to make a commitment to fix damages for the Frye, agreeing to discontinue with the umpire and leave the case of two experts, one from each country, to decide.

In agreeing to submit to arbitration the interpretation of the treaty of 1872, to determine whether it gives Germany the right to destroy American ships in order to stop contraband traffic, the American government holds that not only must warning be given and passengers and crew saved but that small boats are not considered a "place of safety" within the treaty.

The United States has not insisted upon this heretofore with reference to Americans traveling on ships under a belligerent flag.

SCOPE OF TREATY.

Officials here, however, feel that the treaty was a special arrangement between Germany and the United States expressly drawn for the purpose of protecting the vessels and lives of subjects of either party in war time.

Germany has drawn the opposite interpretation, that the sole object of the treaty was to protect the lives of reaching the enemy and that destruction was permissible if no other means presented itself. In consenting to arbitrate this point, however, the American government is insisting that the minimum of injury shall fall upon American citizens and believes that an assurance with reference to the safety of passengers and crews of American ships carrying absolute contraband will sufficiently safeguard American interests.

Germany already has given the assurance that American vessels carrying conditional contraband will not be seized under any circumstances, but according to recent declarations by Germany in retaliation for British seizures of German auxiliary cruisers at Norfolk were connected with the outfitting of the ship which left Pensacola also are being investigated. Another phase of the investigation is the attack on a British tanker bound from Tuxpan in the Mexican oil fields, strengthen the belief of the agents that the attacking ship, manned by Germans and outfitted

with such a variety of supplies as would be used by a warship, left Pensacola, Fla., October 4. They have not established her identity.

More War in Sight.**Submarines Said to Be Causing German Lots of Trouble.****ANTI-MILITARY VIEW.****Indictment of the movement for military training the public schools was submitted by Louis P. Lochner, Secretary of the Chicago Peace Society. He said, in part:**

"The most stupendous crime in history, if we are to accept the view most current in America, is being fought in the name of democracy and solemnly in opposition to militarism—a 'war to end war' is the phrase applied by ally and Teuton alike—yet, within the various countries democracy is being more and more overshadowed by the very militarism which each power is seeking to destroy in the other."

The efforts now under way to establish military training in our public schools are part and parcel of this general swinging back of the pendulum to the ideals of a century in which the gun patriots would not have commanded nearly as much notoriety as now."

SAYS MISS SHONTZ.

Miss Marshall Shontz, of Chicago, organizer of the Women's Peace Party and Vice-President of the National Woman's Party, delivered an address on "The Call of Old Glory for Heroism." She said, in part:

"All the world waits to see whether our children will deserve the tribute paid to them by the world. We are to be proud to fight," Dr. Thomas E. Green says 58 per cent. of the globe is swept by war."

"William W. Welsh, secretary of the International Bureau of Students, tells me that the students in the world who would rather die than to war and commit murder. I am one of them. If 10,000 young men in the world were to follow the lead of Mr. Welsh, how long would it be before the world would be turned into a school and college."

MRS. MEADE'S VIEW.

Mrs. Lucia Meade, author, of Boston said:

"America faces today a decision which affects not only ourselves, but the whole world. This decision will settle the question, whether the safest nation in the world will set the example of non-resistance to the use of force, or whether it will inaugurate a new policy, assume world leadership since the second Balkan war. Every Bulgarian has desired to take back Macedonia since those tragic days. King Ferdinand said, when he expelled the troops after the second Balkan war, that Bulgaria's allies had acted as traitors. If the King had accepted the offer of the Entente powers of a part of Macedonia it would have meant an enormous increase in the power and influence of Bulgaria, which later would have been compelled to concede to Bulgaria."

THE CITY AND ENVIRONS. EVENTS BRIEFLY TOLD.

Against Nonpartisan Scheme.

Assemblyman Chamberlain will address the Women's Millon Club at its meeting at 120 Coulter Building this afternoon at 2:30 o'clock. The subject will be the proposed nonpartisan act, which Mr. Chamberlain opposes.

White Man vs. Red Man.

"White Man vs. Red Man: A Tragedy of Race Conflict" will be the subject of an informal lecture by Rev. E. Stanton Hodgin at the First Unitarian Church tomorrow evening. The lecture will be followed by a general discussion. No admission will be charged.

Twins Wrong Address.

An interchange of numbers in the report published Monday morning resulted in giving an erroneous address where occurred the fracas in which C. M. Harrison, gas meter reader, was struck on the head with a bottle by a woman whose name he had read and revealed to her a secret which aroused her fighting blood. The fracas occurred at No. 724 Towne avenue, whereas the original report credited it with having occurred at No. 742.

About Imperial Valley.

The tale of the miraculous transformation of the Imperial Valley from a barren desert to one of the most productive areas of its size on the face of the globe is told in a folder which the Southern Pacific issued yesterday in an edition of 10,000 copies for circulation in the East. "The Imperial Valley, where water has worked miracles," is the title of the folder. It is beautifully illustrated with pictures of typical valley farm scenes.

"Boys' Return."

The dead may not return, but the nearly dead sometimes come back with astonishing force. One of the pioneers in the passenger-traffic business in Los Angeles was Robert C. Boyd. He was here in 1892, when he was bringing people by the trainload from Mexico and the East. He was the first agent of the North Pacific Steamship line in Los Angeles. Five years ago Mr. Boyd had a stroke of spinal paralysis and seemed to be out of business for life. He had a home at Alhambra and other property out there, and a fine business in the city, but he turned everything loose and went out with his family to establish a little ranch called Berrydale, about a mile and a half from Santa Ana. In memory of old times and work which he never expected to see again he had a big anchor hoisted above his front gate. While Boyd had spinal paralysis he also had an indomitable will. This will and other qualities seemed to have worked his resurrection and now he is back in Los Angeles as agent of west coast steamers. Thousands of friends and acquaintances will welcome his return, which seems almost like a modern miracle.

PERSONALS.

Joseph Shellenberg and party of five arrived from the East in a special car yesterday and are staying at the Alexandria. Mr. Shellenberg is a Philadelphia capitalist, and is accompanied by his son, Nathan J., his daughter, Miss Margaret, Mr. and Mrs. Joseph Horner and Miss Sarah Reinbeck. C. E. Taylor of Salt Lake is a guest at the Clark. Mr. Taylor is a pioneer railroad man and an official of the Salt Lake Railway. He is here on business and will go north the latter part of the week.

Col. Charles M. O'Connor, Sixth United States Cavalry, and his wife and daughter, arrived yesterday from Douglas and are staying at the Clark. Col. O'Connor expects to be placed on the retired list during the present month.

Mrs. Charles M. Dunn, wife of a Kansas City banker, arrived in the city yesterday and is staying at the Lankershim. Mrs. Dunn, who is well known in society and club circles in Kansas City, intends to pass the winter here.

Attorney and Mrs. Walter C. Hill and R. A. Dieckman of Atlanta are guests at the Lankershim. The Hills are passing their honeymoon on the Coast. Mr. Dieckman is manager of the Georgian Terrace Hotel and is here for a vacation.

Mr. and Mrs. George McGowan of Louisville, who have devoted several weeks to touring the Coast, arrived from the north yesterday and are staying at the Angelus. Mr. McGowan is a hardware and leather goods manufacturer.

Among the tourists arriving at the Alexandria yesterday are E. F. Wood and party of four from New York. They made the trip from the East in Mr. Wood's automobile without mishap. Mr. Wood is a broker with offices in New York and Chicago. Other members of the party are Mr. and Mrs. J. B. Schuyler and Mr. and Mrs. C. B. Norton.

CHILD GETS SICK CROSS, FEVERISH IF CONSTIPATED

"California Syrup of Figs" can't harm tender stomach or bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste. Liver gets sluggish; stomach sour.

Reveal to the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

TO HEAR APPEALS.

Supreme Court will Open October Term Today—Long Beach Case on the Calendar.

The October term of the State Supreme Court will convene in the courtroom in the Bullard Block, at 2 o'clock this afternoon. The court will be in session one week.

The court will sit at 10 o'clock in the afternoon to hear motions, the calendar of which has not yet been received. Tomorrow and Friday the court will be in session on banc, for the hearing of arguments on submitted cases, and on the following Monday will divide up into departments. Department No. 1, consisting of Justice Shaw, presiding, and Justices Lawler and Sloss; Department No. 2, consisting of Justice Henshaw, presiding, and Justices Lorigan and Melvin. The most important case on the docket is the appeal of the City of Long Beach from the judgment of Superior Judge McCormick denying that municipality a new trial in the action brought by George Chafor and Edward Chafor, by his guardian ad litem, W. C. Creveling, to recover damages on account of the death of Edith Chafor, wife of George, and a result of the Empire Day accident. May 24, 1913. A jury brought in a verdict against the city for \$7500, on June 8, 1914.

The case will be bitterly contested by the City of Long Beach, for if the court holds that it was responsible for the accident, the aggregate bills that must be settled by such a finding will amount to hundreds of thousands of dollars. The Chafor case was by stipulation used as a test to have determined the responsibility of the city under the arrangement by which the Long Beach Auditorium, where the accident occurred, was conducted. The city claimed that it was not responsible for the conduct of the place.

BUSINESS BRIEVITIES.

Automobile accessory dealers, dinner and automobile specialty manufacturers. 100,000 persons will visit the Broadway Automobile and Flower Show, October 23 to 30, at the Boston Store Building (opposite City Hall). This is a wonderful opportunity to directly exhibit your product to interested people. For particulars as to space, apply immediately to J. S. Conwell, Boston Store Building.

"Art in Its Relation to Life" will be the subject of an interesting illustrated address this afternoon at Cumstock Hall, No. 1500 South Figueroa street. The speaker will be Miss Helen A. Brooks, Associate Director of Cumstock School. This is one of a series of lectures on "Art Appreciation," each of which, however, is complete in itself.

Weaver Roofing is a strong waterproof fabric that can be applied over old roofs of any kind. Expert report and estimate without charge. Weaver Roof Co., manufacturers roll roofing and waterproof paints, 339-341 East Second st. F2855. Broadway 784.

For quick action drop answers to Times "liners" in Times liner boxes in downtown offices buildings. The locations of the boxes are printed in the first column of The Times "liner" section.

HEAD BROKE OUT WITH PIMPLES

Could Not Comb Hair. Became Thin. Ashamed to Go Out. Could Not Sleep.

HEALED BY CUTICURA SOAP AND OINTMENT

"I had scalp trouble for three or four months. My head broke out in big festering pimples and I could not stand to comb my hair. I was ashamed to go outside the house, and I got so I could not sleep. I saw Cuticura Soap and Ointment advertised and I bought some. I used them for a week or two and my hair became as thick and glossy as ever, and I have never been bothered since." (Signed) Miss Mary Devine, 601 E. 3rd St., Leadville, Colo., March 4, 1915.

Sample Each Free by Mail
With 25-c. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.

Safe Home Remedy for Skin Troubles

Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment that one has to be very careful. There is one method, however, that you need never hesitate to use, even on a baby's tender skin—that is the Resinol treatment.

Resinol is the prescription of a Baltimore doctor, put up in the form of resinol ointment and resinol soap. This proved so remarkably successful that thousands of other physicians have prescribed it constantly for over twenty years.

Resinol stops itching instantly, and almost always heals the eruption quickly and at little cost. Resinol ointment and resinol soap can be bought at any druggist's. Write for free samples, Dept. 3-R, Resinol Baltimore, Md.

Brentwood Park

With the prospect of Los Angeles building solid to the sea in a very few years, the investor can find assurance of future increase in value which will bring handsome returns on the investment considering the present prices on these beautiful home places.

THE WEATHER.

(Official Report.)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Oct. 12.—(Received by Post A. Carpenter, Local Observer.) At 5 o'clock a.m. the barometer registered 29.95; at 9 a.m., 29.80. Thermometer for the corresponding hours showed 64 deg. and 68 deg. Relative humidity, 6 a.m., 50 per cent.; 9 a.m., 71 per cent. Wind, S.E., 5 a.m., northwest, velocity 2 miles; 9 a.m., southwest, velocity 10 miles. Highest temperature, 71 deg.; lowest, 40 deg. Rainfall for season, 1.00 inch; for 24 hours, .20 inch. Barometer reduced to sea level.

CHANDLER.—The distribution of barometric pressure remains unchanged since yesterday; the eastern high area continues the weather over the Pacific Coast and the western high area over the Pacific Coast. Precipitation occurred over the region of the low pressure between Texas and Arizona. The weather will continue much fair to inclement and variable Wednesday, with continued cool southerly.

LOCAL FORECAST.—For Los Angeles and vicinity: Fair Wednesday, Thursday and Friday; Fair Wednesday, Thursday and Friday.

STATE FORECAST.—SAN FRANCISCO, Oct. 12.—Forecast: Fair Wednesday; light west wind. NORTHERN CALIFORNIA: Fair Wednesday, except cloudy and unsettled weather along extreme north coast. Light west wind. SOUTHERN CALIFORNIA: Fair Wednesday; light south wind. Santa Clara and San Joaquin valleys: Fair Wednesday; light north wind.

ARIZONA FORECAST.—WASHINGTON, Oct. 12.—Forecast for Arizona: Fair Wednesday; light west wind. YUMA (ARIZ.) Oct. 12.—(Katherine Dierbach from the U. S. Meteorological Service.) Gauge height Colorado River, 16.50 feet.

Malted Milk Recipes

Numerous Forms in Which This Nourishing Food Product Can Be Prepared.

The average person who occasionally enjoys a glass of plain malted milk at a soda fountain has no idea as to the many unusual and delicious recipes in which this wonderful food product can be more usefully employed. Among the many forms in which Malted Milk can be prepared for the sick and convalescent, as well as for those in vigorous health, are the following:

Malted Milk Tonic, Egg Nog, Chocolate or Cocoa, Coffee, Cream (or Beef) Bouillon, Mutton (or Chicken) Broth, Tomato Bisque, Spinach (or Asparagus) Soup, Chicken Jelly, Health Bread, Cream Toast, Oyster Soup, Ice Cream, Cornstarch, Blanc Mange, Fudge, Mayonnaise, Cookies and many other dishes too numerous to mention.

To obtain the best results with these recipes it is absolutely essential that the best quality of Malted Milk be used. To determine which is the best is now an easy matter, since the San Francisco Exposition awarded the Grand Prize (highest possible award) to the Malted Milk in the Square Package. Insist, then, upon Borden's, which costs no more than inferior kinds. All good druggists.

LESS WORK FOR WOMEN

Labor-Saving Methods Result in More Rest and Recreation.

Modern women have many conveniences and labor-saving devices that their mothers and grandmothers never dreamed of. As a result the woman of the present generation has much more time for rest and recreation.

One of the greatest conveniences, which at the same time is an economy, is the privilege house-wives now have of buying standardized brands of ready-prepared or partially-prepared foods.

A striking illustration of this is that famous food product known as H-O Oatmeal. This widely-used breakfast food is steam-cooked for more than two hours before it leaves the mill. You need to cook it only twenty minutes and it is ready to serve.

In addition to its convenience, H-O Oatmeal is one of the most valuable food products that has ever been introduced. Made from carefully selected white oats, it contains just the right elements for building and strengthening the human body.

H-O is good for old and young, weak and strong alike. Make it a regular part of your breakfast, and you will be more alert and more agreeably surprised at the results.

H-O Oatmeal can be obtained in airtight, moisture-proof packages of all good grocers. Insist upon H-O.

XXIVTH YEAR.

HEIRESS FOUND; NOT VERY DEAD.

Muddy Creek Murder Mystery Blows up with Bang.

He's Polishing Windows in Hollywood Residence.

With a Comfortable Fortune Works as Domestic.

The missing heiress of Muddy Creek was found yesterday. She had been murdered for her money. With her slippers rolled high and her hair tucked tight, she was scouring the bottom of a large front window at the home of Mrs. G. F. Stevenson, 4717 Hollywood boulevard, yesterday, when she was found.

"So Long Letty," a boy that was true, when discovered approached the house.

"Miss Mabel Grove, formerly Muddy Creek, Pa., live here," she was asked.

"Are you the woman?"

"What are you the heiress who has been missing for three years?"

"Miss Mabel Grove looked Detective Hunt straight in the eye.

"I don't want to buy land, my stock in her oil companies, nor anything what you got to sell."

"And then she was told of the nationwide search for her, how Mrs. T. C. Grove had come from Muddy Creek to hunt for her, how the police had been informed she had been murdered probably, and the quest for her was on."

"More than a year, Miss Grove, according to her uncle, has more than \$100,000 in cash in her credit, has been working as a domestic in the home of a wealthy family."

"When she came here three years ago, she brought \$5000 in cash with her. While hunting for work, she was working as a domestic in the home of a wealthy family."

"The company had a storage room at which she could leave her property until she desired to call."

"She went out and got a job, and when working in kitchens every day, regularly she received her salary."

"(Continued on Third Page.)"

Charles L. Henry, newly-elected president of the American Electric Railway Association and pioneer of interurban development in the Middle West. He is president and general manager of the Indianapolis and Cincinnati Traction Company.

WOODMEN TO BANQUET.

Head Camp Officers Will be Guests at Elaborate Affair by the Local Members.

Head camp officers of the Woodmen of the World, now visiting Southern California, will be guests at a banquet tomorrow evening at 8 o'clock at New Broadway Cafe, Broadway Department Store, arranged by the local camps, comprising 5000 members.

Close to 1000 covers will be laid, and among the speakers will be Head Counsel I. I. Book, head of the Pacific Jurisdiction of the Woodmen of the World; Judges J. Perry Wood and Frederick Hauer of the Superior Court; Albert Lee Stephens, City Attorney, and Attorney John H. Foley.

Major Charles E. Sebastian will deliver the address of welcome. Past-Counsel Gibbs of Los Angeles camp will be toastmaster, and Attorney Wright will preside.

A committee of representatives from various Woodmen camps of Los Angeles will meet Head Counsel Book on his arrival in the city tomorrow, and the day will be spent in sight-seeing.

UPBUILDERS OF COMMUNITIES.

Electric Railway Men See Traction Capital.

See Movies Made, Barbecue, Dance, Banquet.

Ask Puzzling Questions as to the Jitbus.

Representatives of 30,000 miles of electric railway detained in the traction capital of America yesterday.

They were entertained by the allied trolley lines of the Southland, and expressed unstinted admiration of Los Angeles and its transit facilities, and asked some puzzling questions about the "jitney."

"The visit of the men who deal in kilowatts in terms of revenue-producing miles followed the thirty-fifth annual convention of the American Electric Railway Association in San Francisco. Nearly all the association's officers are with the party, including President Charles L. Henry, who is generally credited with coining the term, "interurban."

Detaining from their special at San Fernando, 10 a.m., the visitors, 125 strong, immediately took special Pacific Electric cars for Universal City, where an elaborate programme of entertainment had been arranged.

Under the direction of a Southern California General Committee, with General Manager McMillan of the Pacific Electric as chairman. A fifteen-minute stop was made en route at the San Fernando Mission.

Arriving at the motion-picture city, the visitors were shown over the plant, sawing the making of acetate film, then sat down to a barbecue prepared under the direction of Senator J. R. Romero.

A round of speeches followed, with President Henry of the Chamber of Commerce as toastmaster, and at 5 o'clock the visitors boarded their special cars for the Hotel Mayflower, where there was an informal reception and dance.

Stunning gowns and rich jewels emphasized the loveliness of debutantes and matrons who graced the ball. More than 150 guests were present, including many leading railway men of Los Angeles and the East.

GREATEST BUILDERS.

"The electric railway," said President Henry of the association at Universal City, after a felicitous introduction by President Shoup of the Pacific Electric, "have done more, I believe I am safe in saying, to benefit the communities, the cities and towns and the country that lies between, than any other agency."

"The electric railway, among other things, has made the American city different—better to live in and more convenient. It has brought the city and the country closer together."

"The electric railway has been one of the most important factors in relieving the congestion of cities, the overcrowding of which has been called the menace of the twentieth century."

"The electric railway is not a creature that should be overlooked, but a creature that should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

Wed Longer Than Average Man Lives.

Mr. and Mrs. John W. Walter, who will celebrate their sixtieth wedding anniversary as the guests of honor at a reception to be given by the Illinois Society of Los Angeles.

WILL CELEBRATE SIXTY YEARS OF WEDDED LIFE.

CELEBRATION of their sixtieth wedding anniversary, Mr. and Mrs. John W. Walter, 54 and 76 years old, respectively, will be the guests of honor at a reception to be given by the Illinois Society in the Times assembly-rooms this evening.

Mr. Walter will be called upon to narrate some of the interesting experiences of his eventful life.

Mr. Walter married Lucy Chamberlain at Geneseo, Henry county, Illinois, on September 25, 1855. They are a remarkable couple, both hale and hearty and declaring there is no reason for their failing to round out the century mark, inasmuch as they have adopted Los Angeles as their permanent residence. They are living at No. 227 North Hill street.

"The electric railway," said President Henry of the association at Universal City, after a felicitous introduction by President Shoup of the Pacific Electric, "have done more, I believe I am safe in saying, to benefit the communities, the cities and towns and the country that lies between, than any other agency."

"The electric railway, among other things, has made the American city different—better to live in and more convenient. It has brought the city and the country closer together."

"The electric railway has been one of the most important factors in relieving the congestion of cities, the overcrowding of which has been called the menace of the twentieth century."

"The electric railway is not a creature that should be overlooked, but a creature that should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

SEES PERILS IN NO-PARTY RULE.

Senator Works Against the Johnsonian Scheme.

Decries 'Abuses of Trio of "Progressive" Freaks.

Says State Suffers from an Excess of Legislation.

"Coercion of the people to 'non-partisanship' will do more harm than good," declared Senator Works to the members of the Ad Club at their luncheon at the Clark yesterday noon.

"The American People and Their Government" was the topic of his talk and, after having decry the abuses to which the referendum, recall and the initiative have been put in this State, he turned to the latest scheme of Gov. Johnson to perpetuate himself and his satellites in office.

"It is believed by some men that we can help an already difficult situation, arising from the wrongs of recent legislation, by wiping out parties," he said. "Personally, I believe in non-partisanship in the individual. I believe that he should not stick too closely to any one proposed by a party if there are doubts as to his character or for some vital reason, but elimination of parties would be harmful."

"By merely stating that a man is not a Democrat, a Republican, Socialist or Prohibitionist, you will not wipe out his affiliations. Party affiliations and sympathies can never be controlled by such a law as the proposed non-partisanship act."

"There is no question but that parties need changes, but these must come from within the organization and not through the formation of new parties. I realized this fact when I refused to join the new 'Progressive Party' at the Chicago convention and I believe that the majority of 'Progressives' at this time are aware of their mistake."

SCORES "PROGRESSIVES."

After briefly outlining the form of government existing in this country and calling attention to the fact that in recent times there has been an invisible third government controlling the actions of the lawmakers of the nation, Senator Works mentioned the upheavals that have brought disaster in the parties, creating in the ranks of both Republicans and Democrats "progressive" and "reactionary" wings.

"We have been over-legislated as the result of too much 'Progressive' legislation."

"The electric railway," said President Henry of the association at Universal City, after a felicitous introduction by President Shoup of the Pacific Electric, "have done more, I believe I am safe in saying, to benefit the communities, the cities and towns and the country that lies between, than any other agency."

"The electric railway, among other things, has made the American city different—better to live in and more convenient. It has brought the city and the country closer together."

"The electric railway has been one of the most important factors in relieving the congestion of cities, the overcrowding of which has been called the menace of the twentieth century."

"The electric railway is not a creature that should be overlooked, but a creature that should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

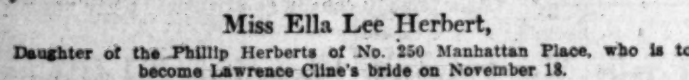

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

"The electric railway should be recognized as a factor in the development of the city, and should be recognized as a factor in the development of the city."

AT THE STAGE
DOOR

Manager Oliver Morosco has at last taken his place as an absolutely independent producer, the deduction to be gathered from the following telegram received at the local Morosco office from George Moore, Morosco's eastern manager:

"Oliver Morosco pulled off big sensational stunt in New York yesterday (Monday). He has been exclusively allied with Shubert in the past. But he learned that critic of New York Times has been excluded from all Shubert theaters. The Times has subscription list of 125,000, and he also saw that he could get best theater on Broadway and throughout the country for his attractions. Klaw & Erlanger had best theaters on 'big white way,' so Morosco proved himself first manager since the factions had been fighting to declare complete independence. All New York papers handled it big. 'Unchastened Woman' opened in Shubert Theater Saturday night and is sensational success. 'Sadie Love' opens in Klaw & Erlanger's Gaiety Theater November 5, and 'So Long Letty' will open another K. & E. Broadway house on January 1. Along with this big move is talk of New York."

Movie Stunt.

"Under Cover," being played by Frances Ring and Edmund Lowe, at the Burbank week, was the first play in New York to break over theater tradition and use the motion-picture method of the "cut-back" in one of its scenes.

Don't Believe It.

Blanche Ring, star of "Nobody Home," is reported to be writing a book on "How I Try to be Different from Other Comedians." We don't believe it, however, firstly, because Miss Ring doesn't have to try, and secondly, because the lady is possessed of a sense of humor.

Burbank Gets Nearly Married.

"Nearly Married" is the piece which goes on next at the Burbank, following "Under Cover." The play will probably run for two weeks.

Frances Ring has the leading role; Grace Travers is to play another adventure; Ida St. Leon plays a married woman for the first time in her career. John Ivan being the happy man, and Edmund Lowe, the Irishman, and says it seems good to get back and brush up her dialect.

Josh, by Heck!

It is quite likely that when the "Old Homestead" goes on, James Corrigan will be cast for Josh Whitcomb, as he played the role for several seasons in the East, in the old Denman Thompson play called "Josh Whitcomb," from which the "Old Homestead" was made.

Understudy Gown.

Grace Travers, as the "professional correspondent" in "Nearly Married," will wear one beautiful gown. And that gown has a "double," which gets soaking wet in the rain every night.

Cleopatra Selma.

There is a rumor that Selma Paley is to go to San Francisco to take the position of leading lady at the Alcazar Theater.

Farwell, Don Dear.

Donald Bowie has accepted an Australian engagement, and will tour the country. He left for New York yesterday and will view the best plays of Chicago and the metropolis, spend a week with his mother in New York and return to the West sailing from Vancouver for Australia in about a month.

Turkish Pass.

Billie Collins, stage manager of the Burbank Theater, saw the new moon over his left shoulder Monday night, and the Indian sign was on the "Under Cover" performance. The house cut walked out in the first act, and broke up the third-degree scene; they turned on the burglar alarm and forgot to turn it off, and the actors lost their cues, and Edmund Lowe forgot his commission paper, and everybody had to stand around and pretend to believe the unsupported word of a man, whom the moment before they had been firmly believing to be a crook. Following, which, yesterday was a holiday, but everybody had to work all day just the same.

Four Old London.

Constance Collier, the noted English actress, who has come West to appear in pictures for the Oliver Morosco Photoplay Company, declares war conditions in London to be sad beyond belief. She says there were wounded soldiers everywhere. But it is the many blind as the result of battle experiences that are the most pitiful, plunged all at once as they were into total darkness and helplessness.

Miss Collier says the women of London have organized and are doing for purposes of self-protection.

Farwell's New One.

George Farwell, well known to theatrical people on the West because of his recent work in pictures here for the Morosco Photoplay Company, is appearing in a new play by George Broadhurst, entitled "What Money Can't Buy."

Frank Kemble Cooper, who directed and appeared in "Master Willie Hewes," which Marjorie Ransome played in at the Burbank a few months ago, is also in the new Broadway piece.

Jim Says That So.

Jim Jeffries comes forward to say in a few well-chosen words that he wants to deny that he ever was knocked out by Francis X. Bushman in a photoplay, as reported a few days ago.

Lord John in Film.

William Garwood, formerly of the American Film Company's forces at Santa Barbara, and later star with the eastern Universal, this week arrived at Universal City, where he is to be featured in a series by C. K. and A. M. Williamson entitled "The Journal of Lord John." Each of the stories will be complete in itself.

Smaller Branch Out.

Upon the completion of their filming of "Booth Tarkington's 'The Phil'," the Smalls are to start the production of Rufus Steele's "Dope."

Two Rings are better than one.

Any day of the week, even though they both may be mighty classy, and if you don't believe it, ask the nearest debater, or better still, the theatergoer. There are two members of the Ring family now shining on the Rio. The joyous sparkle of Blanche (left) is still enlivening "Nobody Home," at the Morosco, while Frances's peppy fascination is a welcome factor in making "Under Cover" highly entertaining at the Burbank.

A Campaign.

AUTO CLUB OUT AFTER
CRAZY SPEED MANIACS.

ALL officials of the Automobile Club of Southern California yesterday turned entomologists in a "bug" campaign.

More than 80,000 motorists will also take up the new study if the plans of the auto club are carried out. It will be a gigantic attempt to collect specimens of bugs believed to belong to the order of Coleoptera, which is not a secret society. The common or garden name of these insects is "speed-bugs."

A CAMPAIGN.

In other words, the automobile club is planning a campaign, in cooperation with the police department and Chief Sively, to effectively stop the plague of these animals which has been a suggestion made to officials of the club during the summer and early fall.

It will be an early fall for those motorists who get "bugged up" and then whiz down the street half blinded with booze and wholly heedless of their own lives or the lives of others, and they will, and it will likewise be an early fall for motorists who cut corners, speed even though sober, or violate any traffic rules whatsoever, if the Automobile Club of Southern California hears about them.

AFTER SCALPS.

The club is out for scalps, and according to Secretary Stan Mitchell, it is going to get them if the 80,000 motorists of Southern California step up and help.

THE CLUB'S PLAN IS THIS:

If every motorist who sees another motorist violate any single traffic rule, or a whole flock of them, will report the number of the violator to the club, headquarters or to the club's branch office in the vicinity, the club will do the rest. So will the police. So will public opinion.

GET TOGETHER.

It is a plan for the motorists of Southern California to get together. Club officials point out that the majority of automobiles are sane, careful and competent, but that there are exceptions, and it is up to the sane ones to stop the others from making an unfavorable record for the southern part of the state.

NO CHANCES.

It is believed by the club that if the numbers of speeders or law violators, that this procedure, coupled with the activity of the police, will go far toward cutting down the number of reported accidents.

There should be no such thing as "taking a chance" in the activity of any motorist," said President Fred L. Baker of the automobile club yesterday, "While it is deplorable but true, next president,

BOSTON BEANS TO
PLAY QUAKER OATS.

The employees of the H. R. Boynton Company will play a ball game Saturday afternoon. They will divide up into two nines, one to be called the Quaker Oats and the other the Boston Beans. The line-ups are as follows:

Quaker Oats—F. Boynton, catcher; K. Hoodman, pitcher; P. Goodman, first base; D. Mills, second base; H. Fletcher, shortstop; R. Blackburn, third base; R. Preston, left field; D. Rader, center field; H. Goth, right field.

Boston Beans—F. Gabbert, catcher; A. Helms, pitcher; F. Fidel, first base; W. DeWitt, second base; P. Patrick, shortstop; O. Pemberton, third base; C. Saunders, right field; H. Shinn, center field; A. Lange, left field.

OCEAN FISHING
POOR AT PRESENT.

Al Reed says, "There isn't a fish in the ocean," but it is probably more accurate to say that at present salt-water fishing is decidedly on the bum. For some unknown reason the funny beauties will not interview the bait.

DUFFY LEWIS PERSISTS
IN PLAYING HERO PART.

[BY A. P. NIGHT WIRE.]

BOSTON, Oct. 12.—Pitcher Shore, who lost his battle with Alexander in Philadelphia last Friday, was loudly cheered as he took the hurling mound to open the game. Philadelphia's first batter, Stock, ripped a hit down the left-field foul line.

Duffy Lewis, by hard sprinting, fielded the ball quickly as Stock was digging out for second. Lewis made a fine throw to Scott and the Philadelphia runner was nipped as he rushed into the bag.

Shore gave Bancroft four balls. With two balls and two strikes on Bancroft, Bancroft streaked to second for a steal. Cady made a good throw to Barry and the runner was cleanly out, but in the mixup at the bag, the ex-Mackman dropped the ball on an excusable error and Bancroft was safe. Paskert struck out and Cravath also fanned the air.

CHALMERS'S DEBUT.

Chalmers then made his debut as a world's series pitcher and started out in fine style. He made short work of Hooper, first man up for the Red Sox, striking him out on five pitched balls. He did even better on Scott, fanning him on four offerings.

Tris Speaker got a base on balls, but was out trying to steal second. Capt. Luderus, the Milwaukee slugger, sent a hot single to right field in the second inning. He went to second on Whitted's sacrifice, the play on Whitted being Hobbsell to Barry. Niehoff sent up a high foul fly to Cady.

Burns walked on four straight balls. Chalmers struck out, leaving the two runners on the bag. Hobbsell, in Boston's second half, took the limit on balls and strikes and then Chalmers, three strikes out in four outs. The crowd, remembering Lewis's great work yesterday, gave him a round of applause as he stepped into the batter's box. He was thrown out. Paskert gathered in Gardner's fly, ending the inning.

Shore showed to better advantage in the third inning. Stock grounded out, Gardner to Hobbsell. Bancroft walked to first on second. Paskert struck out again.

Then Cravath poled a tremendous drive to Lewis, who had to go back almost to the fence to take the ball. This out ended the inning.

SOX BREAK ICE.

The American Leaguers broke the ice in their half of the third inning. Barry was given a base on balls. Then Boston got a lucky streak. Cady, in attempting to sacrifice, bunted the ball toward Chalmers, who tried to field it, slipping and fell upon it. Before he could recover himself, Barry was safe at second and Cady on first, the play counting a hit for the latter.

Shore laid down a sacrifice and was out. Scott to Niehoff, Barry and Cady advancing. Hooper then pushed an ugly bouncer to the infield. Niehoff ran in on the ball and batted it down, but he was unable to check either of the runners. Barry scoring the Sox's initial run and Cady going to third. It was a scratchy hit, but the Boston fans nevertheless were overjoyed to have their team get on the scoreboard. Chalmers was pitching a fine article of ball. Scott sent out a high foul fly that Whitted got by good sprinting and fielded. Cady and Hooper on the bases. Speaker was called upon to bring home another run, but he offered Luderus an easy grounder to end at first.

CHANCE LOST.

The Phillies got two men on base in the fourth inning. After Luderus had flied out to Hooper, Whitted was grounded to first on a sacrifice. Both Luderus and Whitted had attempted to bunt Shore's first pitch and both resulted in little pop fouls out of the reach of the infielders and the Boston battery. Niehoff, who had not yet made a hit in the series, saw first base for the first time, when Shore served him four bad balls. Burns put him on second with a single to right field. Again Chalmers came up in a pinch and ended the inning by shooting a scorching grounder to Scott, who snapped the ball to Gardner, forcing Niehoff at third. It was a very new Casey.

Pat Moran sent Becker to left field and Whitted took Luderus's place at first. Scott was thrown out by Stock. Niehoff was fanned by Chalmers. He slammed his third single to right and Speaker sprinted to third. Lewis was given a base on balls. Whitted filled things looked very promising again for Boston, but another double play killed the inning. Gardner chopped a grounder to Chalmers at the plate, and then Burns whipped the ball to Whitted ahead of Gardner.

The Phillies were quickly disposed of in the final inning. Niehoff was fanned by Gardner and Burns landed a high fly to Scott. Burns, pinch-hitting for Chalmers, sent a fly to Whitted, who caught it in the ball to Lewis, who sent his sixth put-out of the game.

THE TIMES.

The Times, in addition to its unsurpassed foreign, national and local news service, is the only newspaper in California having its own correspondent, Harry Carr, in the European battlefields. Mr. Carr's articles, written from the various European cities, have the intimate personal touch, and are intensely interesting. And these will be published after his return from the scene of hostilities will be fascinating, thrilling and enlightening.

The Times chronicles all the momentous happenings in the world accurately and impartially, and in local news it stands out distinctly as a Los Angeles newspaper, being owned, managed and edited by men who live in and are identified with this city.

Its editorial page is strong, aggressive, progressive and independent; its financial and market page is complete than that of any other Pacific Coast newspaper; its Women's Page meets the needs of all classes of women; and its Society Page thoroughly covers the social activities of Los Angeles and environs.

The Times' literary features are comprehensive and varied; its cartoons are amusing and instructive; its articles on the home, church and clubs, art, amusements, sports, door life and sporting events are well written and entertaining, and in all the features that go to make up an adequate metropolitan newspaper The Times shows its incomparable and indisputable supremacy all the year around.

THE WOMAN'S HOME COMPANION.

The "Companion" stories are the kind of stories that are as good to read as intelligent, well-bred, enterprising people are to meet. They are not the kind that give a cheap view of life, or throw a glamor over vice and crime, but they elevate thought and inspire men and women to worthy deeds. A new series begins in November, with the first installment of Fanny Heaslip Lea's new serial, "Chloe Malone." The regular subscription price of The Woman's Home Companion is \$1.50 per year.

THE AMERICAN MAGAZINE.

A beautifully illustrated magazine for the home, devoted to art, fiction, humor and sketches of distinguished people of the world, by famous writers. Of interest to every member of the family. The regular subscription price is \$1.50 per year.

HOW TO GET THEM.

Sign your name and address on the card below and mail or bring it to The Times office, or any regular Times agent.

The regular cost of this great combination is:
The Times \$ 9.00 per year
Woman's Home Companion 1.50 per year
American Magazine 1.50 per year
Total \$12.00 per year

Any person subscribing for The Times for 12 months can get them for 80 cents per month. Old subscribers not already on a subscription contract may take advantage of this offer.
